Brightpoint Health Opens New Mental Health Centers in The Bronx and Brooklyn

Brightpoint Health, a leading nonprofit provider of health care services to New Yorkers in need, has opened two additional outpatient mental health facilities. The centers are located at 1669 Bedford Avenue in the Crown Heights section of Brooklyn and 2510 Westchester Avenue in The Bronx’s Westchester Square area.

The new clinics are New York State Office of Mental Health licensed Article 31 facilities, as is Brightpoint’s existing mental health center in The Bronx. Staffed with psychiatrists, licensed clinical social workers, psychiatric nurse practitioners and licensed mental health counselors, the new centers provide complete mental health services, including medication, individual and group psychotherapy, for adults. The new Bronx facility will also provide services for pediatric patients, a first for Brightpoint.

Brightpoint also offers mental health care at its Article 28 primary care centers in the Bronx, Brooklyn and Queens.

“There is a growing and unmet need for high quality mental health treatment and support, particularly for lower income individuals in New York City.” said Paul Vitale, Brightpoint’s President and Chief Executive Officer. “Mental health is a critical part of overall wellness for people and communities, and we are delighted to offer expanded services in The Bronx and Brooklyn.”

About Brightpoint Health

Brightpoint Health is a leading nonprofit provider of integrated primary care, mental health, dental care, and substance abuse services to New Yorkers in need. Brightpoint runs the largest health home care management program in New York State. With 700 employees and locations throughout the five boroughs, Brightpoint serves 40,000 people with over 200,000 health care visits annually. Brightpoint is known for providing the highest quality care and improved outcomes while, of equal importance, treating each and every patient with the kindness and respect they deserve.
